

# What is the Opening Channels Program?

The *Opening Channels Program* is a unique combination of homeopathic, botanical, and nutritional supplements designed to “set the stage” by maintaining normal

function of the elimination pathways including the colon, liver, spleen, kidneys, etc. The synergistic ingredients in the Opening Channels products help to maintain normal **digestion, elimination, hydration, pH balance,**

**and liver/gut function.** The products are all natural and designed to work with your body as the first step in an overall healing strategy.

## How do the products work?

The *Opening Channels Program* works with the body’s natural flow system to assist in maintaining a healthy balance. In today’s fast-paced world, almost everyone accumulates unwanted toxins in their bodies. The combination of botanicals, nutritionals, and homeopathics in the Opening Channels products supports the body’s natural ability to eliminate toxins gently via the pathways of drainage and elimination.

## How will I benefit?

Utilizing *The Opening Channels Program* as the first step in a healing process that includes proper diet and exercise can offer numerous benefits, such as assisting with normal digestion and elimination, increasing nutrient uptake, helping maintain normal pH

and mineral balance, supporting normal energy levels, promoting normal function of the liver and colon, and assisting with normal hydration of the cells.\*

The *Opening Channels Program* is convenient to take. There is no need to stop eating or go on an extended retreat in order to complete the program. This program is easy to use and can fit into anyone’s schedule. It even comes in a portable pack with a pillbox and information booklet so you can take it with you wherever you go!

## Product Details

### ReHydration

Homeopathic hydration remedy

A homeopathic remedy added to water for symptoms associated with fluid imbalance.

### SpectraMin

Naturally occurring liquid ionic trace minerals

This formula is designed to replenish lost minerals and electrolytes while maintaining normal pH balance and energy levels.\*
